Subject: RE: PHSS stratified random surface sediment sampling

---

I was just informed that Keith Kroger is from Geosyntec, not AECOM.

The message is still the same - Ken needs to keep his contractors under control.

Davis.

I've just been made aware that one of our field oversight staff has been asked to field incoming calls from a Keith Kroger at AECOM who appears to be attempting to intimidate our staff with interrogating questions over their approach vs EPA's. Our staff is deferring these questions to Howard, me, or EPA, but this line of communication is inappropriate and an unprofessional intimidation tactic. We would like you to convey this information to Ken so that it stops immediately.

Please give me a call and I'll patch in Howard to fill you in on the details if you need more information.

Thanks.  
Scott
